		Verge Head Kit <input type="checkbox"/>	Verge Head Kit <input type="checkbox"/>
		Twin Accumulator Float <input type="checkbox"/>	'S' Touch Max Joystick <input type="checkbox"/>
		Hydraulic Nose (HC Only) <input type="checkbox"/>	Hydraulic Nose (HC Only) <input type="checkbox"/>

Warning: It is the end user's responsibility to ensure that the trimmer does not exceed the tractor OEM's (original equipment manufacturer) specification for implement mounting and hitch capability and that the installation is technically appropriate based on the weight and size of the tractor and its implement attachment system. Owing to the size and weight of the 8000 series it is recommended that customers mount the trimmers using an axle mounting system. 4 point linkage mounting must only be used on tractors with suitable linkage mounting points and even then, Shelbourne Reynolds recommends that axle mounting is used for improved strength where possible. 8000 Series trimmers can become detached if used inappropriately with the 4 point linkage mount.

If axle bracket mounting sub frame required also advise tractor rear tyres -

MAKE & SIZE	<input type="text"/>	TRACK / CENTRE DIMENSION	<input type="text"/>
-------------	----------------------	--------------------------	----------------------

If axle brackets are required, also advise the following tractor details -

TRACTOR SERIAL NO.	<input type="text"/>	GEARBOX TYPE	<input type="text"/>
--------------------	----------------------	--------------	----------------------

Does it have cab suspension?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	Does it have air brakes?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
------------------------------	------------------------------	-----------------------------	--------------------------	------------------------------	-----------------------------

Any interfering items around the tractor rear axle stabiliser bracket area, eg. wrap around tank, front loader arms -

More information maybe requested if axle brackets have not previously been produced, including photographs
